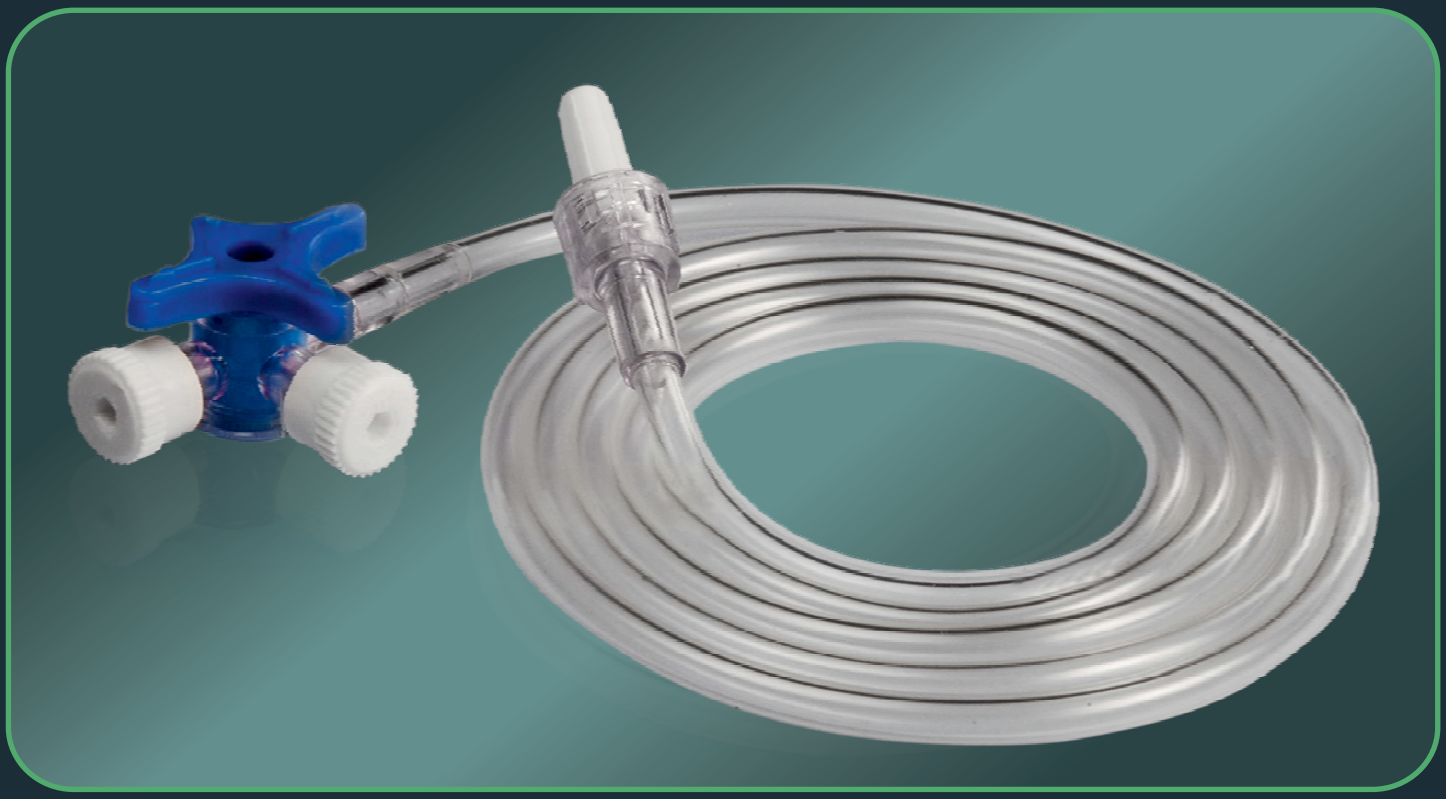
GENERIC NAME	BRAND	USES
Extension Lines with 3 Way Stopcock	FLEXOLINE	Extension of Infusion Lines



FEATURES	BENEFITS
3 Way Stopcock	■ Full range of benefits of the 'Standard' or 'Lipid Resistant' stopcock.
Soft, kink resistant, crystal clear extension tube	■ Options of various lengths offer flexibility of use for different & varied applications. ■ Ideal for short to medium term infusion therapy.
'Y' injection port"	■ Injection site is made of Polysulfone (Latex Free). ■ Facilitates quick & aseptic injection of drugs close to the cannulation site. ■ Optimally positioned at a distance of 10 cms from the distal end, thereby reducing the drug dilution volume & travel time delay, thus enhancing the drug dosage accuracy.
Multiple End Adaptor Options	Available with different end adaptors combinations of 3 WSC / MA / FA / MA.
